Objectives

The objectives of the Chapter supplement the purposes of PMI as set forth in the PMI by-laws.

- The Chapter objectives are to encourage and facilitate education, certification and professionalism in Project Management and to provide a forum for discussion and examination of problems, solutions, applications, and ideas related to the management of projects and to foster communication between public and private sectors regarding project management, and to disseminate within the primary area of operation of the Chapter information regarding developments in project management.
- Chapter membership puts you in contact with a local "network of expertise" and ongoing opportunities for face-to-face contact with peers from a wide variety of organizations and industries. PMI's support of members on a local level continues to expand.
- Chapters advance the mission and objectives of PMI by promoting professional standards and practices. Ongoing professional development is a key benefit to membership and is supported at the chapter level through activities, meetings, and educational programs

Become A Volunteer

Be part of our community.

Good to have you on this page, because it means you are thinking about how to give back to the profession and to the community. Thank you!

There are many ways to become a volunteer for our Chapter:

- **Become a Board Member**, get involved as part of the chapter's core committee, in General Secretary, Treasury, Program, Marketing, Education, Communication, Membership or the Branch Departments. Be in the workshops and have your say to craft the chapter programs and strategy. This is a permanent position and requires your commitment for one full year. We usually announce a "Call for Volunteers" in December for these opportunities
- Become a member of **Special Events Committee**, we run many events throughout the year such as teh Symposium and Exhibition, Project Management Challenge, Project Management Workshops. Contribute and be part of the organizing volunteers that make events happen with the highest quality.
- Become a **PMP Study Group Mentor**, if you have recently passed your exam, why not help a fellow practitioner to clear their PMP exam. We are very proud of our mentors community and their spirit of camaraderie. You will network with professionals from different industries and will build new friendships
- **Contribute an article**, we will gladly publish your writing. It can be a research paper, blog post with your opinion on business, strategy, project management challenges, tips, technology adoption, successes and lessons learned. Your article does not have to be brand new, but it does need to be relevant. And we request that the article is originally written by you or a team in which you are a part of.

We are really looking forward to having you with us!

Become a pro copywriter in 4 weeks.

The NYC School of Copywriting is the only copy and content writing masterclass designed to teach writers, marketers, small business owners, startup founders and anyone else wanting to pick up one of the most invaluable and sought out skills in the modern workplace.

This course focuses on the craft of conversational copywriting—writing in a human voice that's non-salesy, jargon and buzzword free and ultimately styled to create and maintain authentic connections with readers and customers.

Organized and led by Corey Rosenberg, one of the most successful marketing copywriters in Silicon Valley, the course is broken into 4 90 minute classes:

Class #1: Introduction to copywriting
Class #2: Brands, brand voice and the digital marketing ecosystem
Class #3: Writing websites and emails

By the end of our course, you'll be a bona fide copywriter, fully equipped with the skill needed to launch like-able brands, write sales and marketing assets for every marketing channel, grow your business and quadruple your sales.

Corporate Training

Training support extended by the Chapter for employee learning and engagement initiatives at Corporates with respect to Project Management

Introduction

Value of Project Management

Our Economic and Business landscape is changing fast. Those who follow change will be ousted. Choose to lead Change. Project Management helps not only Create, Sustain and Rejuvenate a Business Model but also helps Resurrect and Recreate value proposition which is either lost or damaged.

Our Target Audiences

To differentiate ourselves and for our organizations to best utilize our talents, we all need to understand what is it that makes us stand out: What are we good at? And taking this one step further, how can we get better in those areas?

We have to address needs of two distinctive audiences

#1: People/ Individuals within the corporate who view PM as a career

#2: People/ Individuals within the corporate who view PM as a skill

Become a pro copywriter in 4 weeks.

The NYC School of Copywriting is the only copy and content writing masterclass designed to teach writers, marketers, small business owners, startup founders and anyone else wanting to pick up one of the most invaluable and sought out skills in the modern workplace.

This course focuses on the craft of conversational copywriting—writing in a human voice that's non-salesy, jargon and buzzword free and ultimately styled to create and maintain authentic connections with readers and customers.

Organized and led by Corey Rosenberg, one of the most successful marketing copywriters in Silicon Valley, the course is broken into 4 90 minute classes:

Class #1: Introduction to copywriting
 Class #2: Brands, brand voice and the digital marketing ecosystem
 Class #3: Writing websites and emails

By the end of our course, you'll be a bona fide copywriter, fully equipped with the skill needed to launch like-able brands, write sales and marketing assets for every marketing channel, grow your business and quadruple your sales.

Members Events

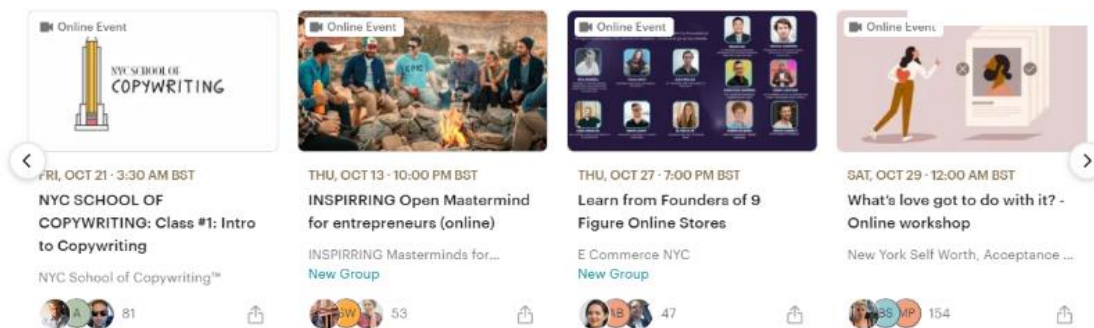

Be part of our community.

- **New Members Orientation**, a session for members who have recently joined PMI or the Indonesia Chapter. Interact with the Board of Directors, get acquainted with chapter activities and network among the members. This event is done quarterly and is run in a casual setting and we sometimes invite a special guest
- **Team Building Outbound**, an annual event creatively designed to take members out of their daily routine, usually a weekend getaway where we do fun activities. This is a good opportunity to get to know each other better and to forge friendships among the members
- **Meet and Greet** (Annual General Meeting), is a special event held commemorating the Chapter's anniversary in October. As we reach each milestone, we invite members to share their project stories, we present the President's Award for the most active members, mentors and we also have games and quizzes.

During the pandemic, we have had to change the format to a virtual one, but it is still a great chance to meet and greet the familiar faces as well as the new ones.

What is Symex?

SYMEX is PMI Indonesia's premiere annual event. In this two-day conference, Project Managers and other industry professionals will exchange knowledge, create new network contacts, and receive valuable insights. SYMEX will provide professional development opportunities for project management practitioners of all skill levels.

The aim of this symposium is to provide a forum for industry professionals, business owners, educators, researchers, policy-makers and graduate students with opportunity to explore and discuss issues in project management topics. International and local speaker both from practitioners and academics will share their knowledge, experience and state-of-the art of project management.

The symposium is also an opportunity for companies to meet project managers seeking career transition and matching the interests, skill, and experience to their needs. The exhibition will be the opportunity for sponsors to promote their products and services to project management practitioners.

During the event, maximize and gain benefits through:

- Networking with project management practitioners across industries. More than hundreds of practitioners regularly come to this event
- Learn from the sessions and active interactions by the distinguished speakers; domestic and international; share and exchange ideas / experience directly, that encompass both regional and global project management topics.
- Earn up to 24 professional development units (PDUs) to maintain your PMI credentials
- For a full Symex experience, we encourage all the participants to attend the event at the venue.
- For those who cannot make it, an online track has been made available. However, the online track features different guest speakers than the Venue event

CSR Activity Collaboration Request Form

Over the years, the Chapter has been contributing its mite to the Development Sector by collaborating with Not for profit organizations and getting involved in outreach activities with these Not for profit organizations. Below are some of the initiatives of the Chapter.

Rs 1 lakh contribution to Anudip Foundation towards food distribution

PMI Bangalore Chapter made a financial contribution of Rs 1 lakh to Anudip Foundation to support their initiative of distributing food to very-low-income family groups whose primary bread-earners were affected due to COVID. Anudip's task force has delivered to their families at their homes as they were in the stage of isolation because of COVID infection and they were unable to go for work.

Oxygen Concentrators to Hemkunt Foundations

Chapter donated INR 1.00 Lakhs to Hemkunt Foundations to support this NGO towards its COVID relief efforts for purchasing Oxygen concentrators during the second wave.

Collaborating with Robin Hood Army for distribution of food

Chapter collaborated in a small way with the Robin Hood Army to distribute food for the needy. Robin Hood Army is a voluntary based Zero funds organization where food distributed to the needy is sourced from surplus or freshly cooked food on a goodwill basis.

Youth and Social Impact

Inspiring youth to achieve their goals,
making dreams a reality.

What is Youth and Social Impact?

PMI Bangalore's focus on Youth and Social Impact is focused on youth and nonprofit outreach activities to create awareness about the usefulness of project management amongst those ages 5-35. We serve these groups via mentoring, building engaging relationships, and networking within the chapter's reach.

What is PMI's focus on Youth and Social Impact?

Our primary focus is driven by the 17 United Nations' Sustainable Development Goals.

Enabling youth and young professionals with the tools around project management helps in many ways. We focus on engaging individuals through project management as a life skill. As such, we are dedicated to enabling changemakers around the world to elevate their impact on society.

To do this work, we use three primary approaches:

Youth: Sustain our emphasis on young people, creating generation after generation of adults who fulfill their own goals and are prepared to shape their world.

Nonprofits: Amplify our ability to reach and influence youth by emphasizing the global delivery of our services through engaging, experience-based project activities offered through nonprofits.

Volunteers: Leverage volunteers to help deliver the benefits of project management to youth.

Project Management For Small Projects

By Torquato 2018 May 2021 4 May 2021

What's a small project? For the purposes of this article, I've defined a small project as a project with a budget of less than \$30,000 which is generally completed within 2-4 months. Businesses that engage in shorter-term or smaller projects, are generally those that are producing these on a regular basis (my own experience with Island Media is specifically based in digital projects which includes branding, design, development, and advertising). This generally means that often, there are multiple ongoing projects running concurrently – this drives a real need for strong project management. However, historically, project management frameworks have been developed for large scale projects, and while exemplary, it's not always possible or financially viable to run small projects abiding to the same frameworks.
